## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 9-10, 14, 16, 18, and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Van Rijn et al. (WO 2002/43937) in view of Kiguchi et al. (U.S. Publication No. 2003/0024103).

The grounds of rejection are cited in the Office Action filed 2/22/2008.

3. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Van Rijn '937 in view of Kiguchi '103 as applied to claim 9 above, and further in view of Aoki (U.S. Publication No. 2004/0012058).

The grounds of rejection are cited in the Office Action filed 2/22/2008.

4. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Van Rijn '937 in view of Kiguchi '103 as applied to claim 9 above, and further in view of Suda (U.S. Patent No. 6,851,364).

The grounds of rejection are cited in the Office Action filed 2/22/2008.

5. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Van Rijn '937 in view of Kiguchi '103 as applied to claim 9 above, and further in view of Kimura et al. (U.S. Publication No. 2002/0075422).

The grounds of rejection are cited in the Office Action filed 2/22/2008.

***Response to Arguments***

6. Applicant's arguments filed 8/15/2008 have been fully considered but they are not persuasive.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

Applicant argues on pg. 8 that the wettability changeable layer of Kiguchi is on a substrate while that of the present invention is on a transfer plate. However, the teachings of Kiguchi are only used to suggest a method for making hydrophilic and hydrophobic patterns while Van Rijn teaches a transfer plate having ink attracting and ink repelling regions. Because Kiguchi solves a similar problem of forming ink attracting and ink repelling regions as Van Rijn, the teachings of Kiguchi and Van Rijn can be combined.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
